

LOCAL GOVERNMENT

Local Government

Using TerraFlex, the city of San Jose in California, USA, conducted a mammoth clean-up campaign in record time ahead of the big football game.

TerraFlex enabled us to quickly and effectively assess the study area

— Galadriel Burr
CommUniverCity Project Coordinator

UTILITIES

Utilities

A service provider for utilities sees real productivity gains through integrating old and new data with TerraFlex.

We're able to use TerraFlex Advanced for so much more. It's effective, simple to use, and very reliable.

— Reed Sutter
Manager, AMVAMR Systems Support

ENVIRONMENTAL MGMT

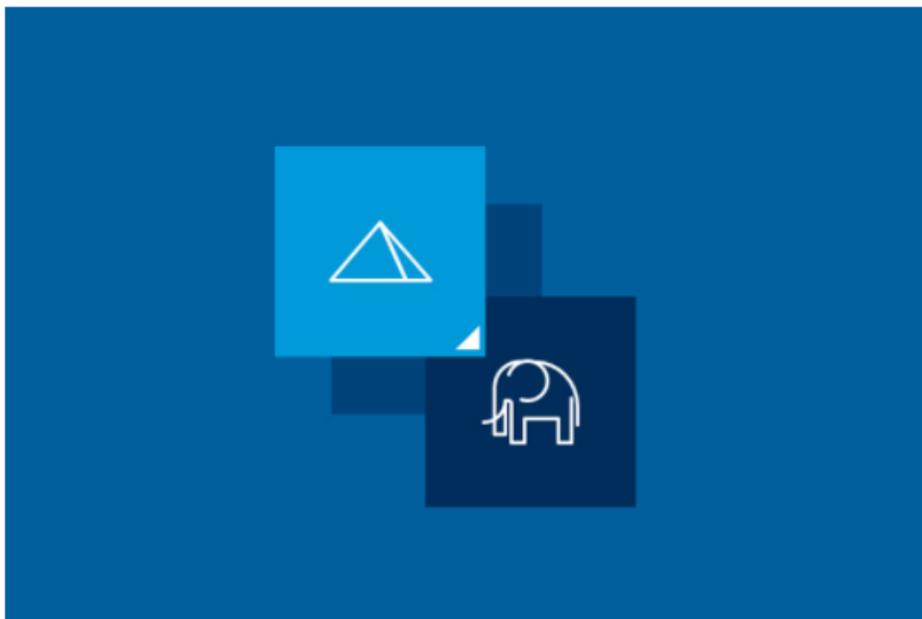

Environmental Management

Aquatic monitoring teams abandon pen and paper in favor of TerraFlex mobile online forms and workflows.

We save hours of data processing per project. And the data is far more accurate.

— Alex Broadben
Information Technology Supervisor, MVCA

AND MORE...

Used all over the world

TerraFlex is being used around the world in field applications from Archaeology to Zoology.

If you have assets in the field that need to be mapped, maintained, or inspected, TerraFlex can streamline your workflow and add value to the data you collect.
